watt students have the opportunity to  
undertake an examined research  
project within the area of reservoir  
geoscience and engineering the  
projects are supervised by members of  
staff in ipe and can contain any

52 until now we have confined our  
discussion to relative simple reservoir  
recovery processes such as natural  
depletion blowdown and waterflooding  
however there are many more complex  
reservoir recovery processes
