True Crime Parallels to the Mysteries of Agatha Christie Anne Powers, 2020-03-04 Outsold only by the Bible and Shakespeare, the works of Agatha Christie stand as some of the most celebrated crime fiction of our era. This book takes ten of her most famous works and shows their relationship to ten of crime history's most famous and sensational cases--cases whose notoriety still resounds to this day. Addressing both novels and short stories, the author illuminates the relationship between Christie's *Murder on the Orient Express* and the sensational Lindbergh Kidnapping Case of 1932; the connections between Christie's *Mrs. McGinty's Dead* and the horrific true case of England's most loathed wife-killer, the American Dr. Hawley Harvey Crippen--and eight more engrossing pairings of Christie's ingenious mystery puzzles with vintage true crime's most sensational events.

The Oxford Handbook of Heracles Daniel Ogden,2021-07-13 Heracles is the quintessential ancient Greek hero. The rich and massive tradition associated with him encompasses myths of all kinds: quest myths, monster-fights, world-foundational myths, aetiological myths, philosophical myths, allegorical myths, and more. It informs and is informed by every genre and variety of Classical literature. The figure of Heracles opens windows onto numerous aspects of ancient religion, including those of cult, syncretism, Christian reception, the relationship between gods and heroes, and the intersection of religion with politics. The Oxford Handbook of Heracles is the first large-scale guide to Heracles, his myth-cycle the Twelve Labors, and, to the pervasive impact of the hero upon Greek and Roman culture. The first half of the volume is devoted to the lucid exposition and analysis of the ancient evidence, literary and iconographic, for Heracles' life and deeds. In the second half, the Heracles tradition is analyzed from a range of thematic perspectives, including the contrasting projections of the figure across the major literary genres and in art; the ways in which Greek communities and even Roman emperors exploited the figure in the fashioning of their own identities and for political advantage; his cult in Greece and Rome and its syncretism with that of the Phoenician Melqart; and Heracles' reception in later Western tradition. Presenting, in 39 chapters, the authoritative work of international experts in a clear and well-structured format, this volume provides a convenient reference tool for scholars and offers an accessible starting-point for students.

Systematic chapters address 'The English Novel as a Distinctly Modern Genre', 'The Novel in the Economy', 'Genres', 'Gender' (performativity, masculinities, feminism, queer), and 'The Burden of Representation' (class and ethnicity). Extended contextualized close readings of more than twenty key texts from Joseph Conrad's *Heart of Darkness* (1899) to Tom McCarthy's *Satin Island* (2015) supplement the systematic approach and encourage future research by providing overviews of reception and theoretical perspectives.
